

# ShareFile + Google — Teamwork on a whole new level

Add ShareFile to your G Suite by Google Cloud, and give your teams the tools to boost collaboration, streamline workflows, and work securely.

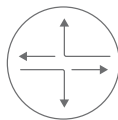

## Simplify file sharing

Send links to ShareFile folders right from your Gmail inbox — without toggling between multiple platforms.

## Keep everything in one place

Connect Google Drive to ShareFile with our Personal Cloud Connectors so you can easily access all your documents in one, easy-to-navigate location.

## Deliver a connected experience

Give teams the ability to share information and collaborate in real time, ensuring work happens without interruption.

## Automate email alerts

Never miss an update. Automatically receive an email when any new file is uploaded to ShareFile for faster collaboration.
